Media Release

Amazon.com most traded share on Tradegate Exchange in July
Trading volume significantly higher than last year

Amazon.com shares were the most traded on Tradegate Exchange in July with a trading volume of 384 million Euros. In second place were SDAX shares of Steinhoff International with 272 million Euros. In total a trading volume of 7.8 billion Euros was achieved in July – a plus of 23 percent on last year (2017: 6.3 billion Euros).

The largest part of the order book turnover was generated by equities with 7.2 billion Euros. Besides Amazon.com and Steinhoff International investors particularly favoured Facebook (245 million Euros) and Wirecard AG (184 million Euros).

Other highly traded DAX stocks were Deutsche Bank AG with 161 million Euros and Daimler AG with 152 million Euros and further popular international stocks were Netflix (175 million Euros) and Apple (100 million Euros).

About Tradegate Exchange

Tradegate Exchange is a stock exchange specialising in executing private investors´ orders. Over 30 trading participants from Germany, Austria, France and the United Kingdom are currently connected and offer access to their customers from their own country and abroad. Around 4,700 equities, 1,700 ETPs, 2,800 bonds and 2,000 investment funds can be traded. Orders are usually executed in full. Tradegate Exchange does not charge any transaction fees. Tradegate provides investors with a continuous overview of what is happening on the market: real-time prices are available for the DAX, MDAX, SDAX and TecDAX indices and can also be accessed by smartphone using the Tradegate app. The app is free and has been downloaded more than 50,000 times. In January 2010 Tradegate Exchange was set up as a regulated market as defined in the MiFID. Managing directors are Thorsten Commichau and Oliver Szabries. Deutsche Börse AG has a 75 percent interest plus 1 share in Tradegate Exchange GmbH, the stock exchange operator of Tradegate Exchange. www.tradegate.de
